

Longridge Church of England Primary School

Coronavirus (Covid 19) Catch up Premium 2020-2021

Catch up Strategy

All children have experienced disruption to their education, whether they have been attending school as the child of a critical worker or have been learning from home. The government have provided additional funding to schools in order for them to put in additional support for those who need it.

During closure, many children have been keeping up with daily work, planned and marked by their class teacher. On return to school these children will continue with their studies, with teachers using ongoing assessment to ensure any gaps in knowledge and skills are built into their learning. For many children, catch up will not mean extra lessons.

However, some children will need additional provision, to ensure that they successfully continue with their education. Any such provision will be delivered by the school's own staff who have the knowledge and expertise to deliver to target groups.

Funding allocation for Longridge CE Primary

Our allocation for 2020-2021 is £13,440. At the time this was calculated, there were 168 children on roll.

Catch up Strategy 2020-2021 (including costings)
